About CRWA

Incorporated in 1990, California Rural Water Association (CRWA) is a 501(c)(6) non-profit organization dedicated to meeting the needs of member water and wastewater systems by providing quality information, training and technical assistance and legislative representation, and assist them in maintaining a high standard of service to their communities.

Whether a system needs help developing a new rate schedule, setting up proper testing methods, understanding those ever-changing and complex government regulations, or preparing a Consumer Confidence Report (CCR), or obtaining required contact hours for operator certification requirements, CRWA is ready to help.

Training

Throughout the year we offer hundreds of classes throughout California. Topics include but are not limited to:

- Pump & Motor Control
- Emergency Response Planning
- Water System Operations & Maintenance
- Water Treatment Certification Review
- Hach Water Training
- Water Math & Water Rates
- Leak Detection
- Wastewater Certification Review
- Distribution Certification Review
- Drought Management

Classes with fees are offered to our members at a substantial discount. Free classes are open to all systems. For a current class schedule, please visit www.calruralwater.org.

Member Benefits

Our members receive a variety of benefits, including:

- *California Water Journal* subscription (quarterly publication)
- Significant reduction in class registration fees, including annual Expo
- Loaner Equipment (when available)
- Website with resource links and industry job opportunities
- Access to vehicle purchase plan through NRWA
- CRWA membership directory
- Free job posting on CRWA website

Annual Expo

Our annual Education and Exhibitor Expo allows participants to earn up to 24 contact hours in 3 days. Participants enjoy good food, entertainment, great company and an introduction to the industry's latest products, all while earning required contact hours.

Preferred Provider Program

CRWA will now be able to help its members collectively leverage their buying power through the value added products and services offered in our new Preferred Provider Program. Members will have access to:

- An average savings of 20% on laboratory analytical services
- Discounted implementation and processing rate for utility electronic billing and payment services
- Special discounted rates on leak detection services

Technical/On-site Assistance

CRWA's current technical assistance programs include the following:

- Assistance in developing State and Federally compliant Sourcewater Protection Plans
- Circuit Rider Technical Assistance for water systems in operations, maintenance and management
- Wastewater Training & Technical Assistance for wastewater systems in operations, maintenance and management
- CDPH State Revolving Fund & School Bond Law Assistance

In a nutshell: We have field staff who will visit your site to offer their assistance in the areas in which you need help.

Academy of Water Education

Our Academy will offer training courses in a variety of topics, including water treatment, water distribution and utility management. Each course will consist of a minimum of 36 hours with a combination of classroom and hands-on training. All participants will be given **contact hours** for those hours attended. Participants who attend the classes and pass the final exam will earn **continuing education units** (CEUs). For a current Academy schedule, please visit www.calruralwater.org.

Our courses are designed by operators for operators. They are taught by instructors with years of experience in the water and wastewater industry.

On-Site Contract Training

CRWA will come to your facility on your schedule to provide quality training to your operators and managers. Our On-Site Education Training Program offers the following:

- Customized training in an array of pre-developed courses or on a topic of your choice.
- CDPH contact hours and/or CWEA hours that will count toward requirements for Distribution, Treatment and Collection certifications.

Whether your employees need a few hours or several days of continuing education training, CRWA can tailor a training program to meet your system's needs.
