ABOUT CRWA

Incorporated in 1990, California Rural Water Association (CRWA) is a 501(c)(3) non-profit organization dedicated to meeting the needs of member water and wastewater systems by providing quality information, training and technical assistance and legislative representation, and assisting them in maintaining a high standard of service to their communities. Whether a system needs help developing a new rate schedule, setting up proper testing methods, understanding those ever-changing and complex government regulations, preparing a Consumer Confidence Report (CCR), or obtaining required contact hours for operator certification requirements, CRWA is ready to help.
