MEMBERSHIP DUES

System Membership Dues are calculated by number of connections. Select the correct dues from the menu below.

WATER & WASTEWATER SYSTEM

Under 99 connections.....\$278
100 to 199 connections.....\$565
200 to 499 connections.....\$695
500 to 999 connections.....\$821
1000 to 1999 connections.....\$1,042
2000 to 3000 connections.....\$1,504
3301 connections and up.....\$1,745

CALIFORNIA WATER JOURNAL

Annual CWJ subscription only.....\$74

MEMBERSHIP BENEFITS

EXCLUSIVE DISCOUNTS FOR CRWA MEMBERS!

- Training & Expo registration fees
- 20% discount for online training
- SUSP utility services and engineering
- Preferred provider program
- Insurance programs
- Technical assistance
- Free California Water Journal subscription (quarterly)
- Free Membership directory (annually)
- Free job listing on employment page
- Legislative advocacy

TRAINING

We offer IACET certified classes throughout California. Topics include but are not limited to: confined space • AB54 • regulatory update • certification review • AWE water treatment & distribution (36-hour courses) • leak detection • wastewater review • backflow tester certification AND MORE! Don't forget our substantial library of on-line courses that you won't find anywhere else from certification prep to utility management. These courses were developed by operators with real industry experience. Visit www.waterlms.com. Classes are offered to our members at a substantial discount. For a current class schedule, please visit www.calruralwater.org.

Onsite Contract Training available upon request. Customized training in an array of pre-developed courses or on a topic of your choice. All courses are approved for SWRCB and REHS contact hours.

CRWA APPRENTICESHIP PROGRAM

The CRWA Apprenticeship Program offers members a powerful opportunity to build a skilled, reliable workforce. The program provides hands-on, industry-specific training, improves operational efficiency, and ensures apprentices meet state standards for certification. This is a two-year earn-while-you learn program encompassing 300+ hours of formal instruction and 4,000 hours of on-the-job-training (OJT).

ANNUAL EXPO

Our annual Education and Exhibitor EXPO allows participants CAN earn up to 24 contact hours in three days. Participants enjoy good food, entertainment, great company, and an introduction to the industry's latest products.

SPECIALIZED UTILITY SERVICES PROGRAM

SUSP is a fee-based program that will provide a full range of services to systems in all areas and phases of utility operations and maintenance. Services include long and short-term water and wastewater operations • utility management • compliance reporting • leak detection • CCTV imaging • backflow testing • cross connection control • hazard assessments and more. Visit www.suspinc.org.

SUSP Engineering is a full-service engineering firm that offers a

complete range of engineering, technical, and managerial services. The engineering services we offer range from preliminary engineering to design and construction management for water and wastewater projects. We offer CRWA members a 5% discount on all services.

Services include but not limited to new wells/well assessments and rehab • tanks and reservoirs • pipeline projects • pump stations • consolidation projects • hydraulic water modeling • source capacity studies • needs assessments • gis mapping • grant application assistance • wastewater treatment plant upgrades • lift stations • sewer pumping stations • wastewater inflow and infiltration studies • MHI surveys • rate studies, and more! www.suspending.org.

PREFERRED PROVIDER PROGRAM

Through the CRWA Preferred Provider Program, CRWA members can have access to a variety of value-added programs and services at **discounted rates**. Services include energy efficiency tools • customer leak protection coverage • water and municipal legal services • leak detection • financing • laboratory services • tank washouts chemical cleaning and inspections • data and management platforms • rate studies • electrical engineering services • online payment solutions • consulting and technical services for management and optimization of aquifers groundwater systems and wells.

INSURANCE PROGRAMS

Memberguard is CRWA's fully-reinsured risk casualty pool, only available to CRWA members. In partnership with Glatfelter Public Entities, and backed by AIG, CRWA formed this Joint Powers Authority to provide a collaborative, specialized approach to managing the unique risks of public drinking and wastewater utilities. MemberGuard provides a comprehensive insurance product that often costs significantly lower than policies on the traditional insurance market.

Utility Resource Insurance Program (URIS) is a subsidiary of California Rural Water Association, was formed to meet the insurance needs of water and wastewater utilities. Our commercial insurance program provides a secondary offering for entities that prefer not to participate in a risk pool. URIS provides competitive solutions, and our policies have many unique features and benefits that demonstrate our years of experience in this industry.

Cyber Insurance Program. With the ever-increasing number of cyber-attacks, especially against water utilities, CRWA worked extensively to create a robust Cyber Group Insurance Policy, exclusively for CRWA members. CRWA members are pre-approved for this policy which only requires a 1-page application and starts at a price-point that any system can afford.

TECHNICAL ASSISTANCE

CRWA offers technical assistance programs including board management and operator training • source water protection plans • smoke testing • grant application assistance • facility assessments • gis mapping • AND MORE!

ABOUT CRWA

Incorporated in 1990, California Rural Water Association (CRWA) is a 501(c)(3) non-profit organization dedicated to meeting the needs of member water and wastewater systems by providing quality information, training and technical assistance and legislative representation, and assisting them in maintaining a high standard of service to their communities. Whether a system needs help developing a new rate schedule, setting up proper testing methods, understanding those ever-changing and complex government regulations, preparing a Consumer Confidence Report (CCR), or obtaining required contact hours for operator certification requirements, CRWA is ready to help.
